

MDConsult

Health Science Center Library

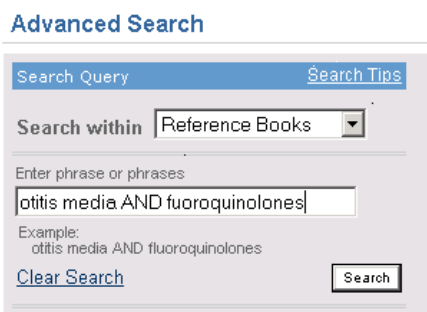

- Subject Coverage:** Clinical Medicine
- Types of Material:** Full-text medical journals, medical reference books, practice guidelines, patient education and drug information
- Years Covered:** Current
- Computer Platform:** WWW
- IMPORTANT:** You must register your profile in order to use MDConsult. You will create a user name and password for yourself and use these to access the database.

To find information in **Reference Books**, **Journals** or **Drug Information**, select respective section tab from the Navigation Bar (above). The **News** section lets you search **This Week in Medicine**, **In This Week's Journals** and **What Patients are Reading**. **Current Practice** encompasses **Clinical Topic Tours** and **Practice Guidelines**.

Search for patient education materials in the **Patient Handouts** section.
The **Learning Center** covers the **CME Center** and **Student Union**.
The **Student Union** provides useful information such as "Medical Mnemonics," "Case Studies" and more.

To **search** in these resources, click on **ADVANCED SEARCH** at the top of your screen.

Search Query: Enter one or more keyword search terms in the "Enter phrase or phrases" field.
Combine terms using OR, AND, or NOT:

- AND** will **narrow** your search; terms in **both** sets **must** be present
- OR** will **broaden** your search; terms in **either** set **may** be present
- NOT** **eliminates** terms in second set from those in the previous set

Under "**Search within**" choose Reference Books, Journals, etc. from the pull-down menu.

**For further help with database searching, call the Reference Desk at the UF HSC Library 352-392-3585.
For HSC Library database access information, call the Informatics Lab at 352-392-3854.
For the Borland Library, Jacksonville, call 904-244-3240.**
